Windy
SPIRIT OF SCANDINAVIA

HISTORY AND LEGACY

WINDY was established in 1966 by Hugo Vold. His father was a fisherman, and his family had many anxious moments awaiting his return as storms raged in the Skagerrak. All his father's boats were called 'Vindy', and he brought every one of them safely back to port. Vold shared his father's love of, and deep respect for, the sea.

Following his university education, he became a boat builder. He wanted his vessels to be known for their seaworthiness and high quality, and he called his company 'Windy' in honour of his father's sturdy fishing vessels. At a time when Scandinavian producers ruled the European market, revolutionising boating and showing millions how to have fun on the water, Vold hired the best designers, sought out the finest boat builders and craftsmen and not only created a world-beating brand, but succeeded in turning the Windy name into a marque of quality. 58 years on, Windy Boats is proud to live according to Vold's legacy, and to build production and custom boats which are acknowledged throughout the world as second to none.

UNRIVALLED SCANDINAVIAN QUALITY

When Windy Boats was established in 1966 our first sports boats set new standards for performance and craftsmanship. More than 58 years on, we're still driven by the urge to be the best.

All Windy Boats bear the hallmark of quality without compromise, drawing on five decades of boat building excellence, and centuries of Scandinavian seafaring heritage. Put simply, we build better boats because we are Windy. It is in our DNA.

Espen Øino, world-renowned designer, founded his technical and design office specialising in yacht design, naval architecture and engineering related disciplines in Monaco.

This Norwegian-born designer linked his destiny with the yachting industry very early on in life: he drew his first boat at the age of two and has been obsessed with boat design ever since.

The company, Espen Øino International, has left a significant imprint on the new build market and is today considered one of the world's leading design studios for bespoke motor yachts.

LUXURY AND SPORTINESS

The *Windy 29 Huracán* will be the latest addition resulting of the successful, continued collaboration with Espen Øino International.

The W29 Huracán is being developed as a modern looking Sport Cruiser combining a spacious, safe, and social cockpit with a fantastic design language creating a unique appearance that radiates both luxury and sportiness.

29 Huracán

This versatile new model can be powered by with either Volvo Penta or Yanmar inboard engines. Both these motorizations together with the legendary deep-V Windy hull secures the trademark top notch performance and seakeeping.

WINDY also continues the collaboration with Design Unlimited who have designed the new Sports Series interiors debuting first with the new Camira and now with the Huracán.

The Windy 29 Huracán will debut at the Boot Düsseldorf boat show 2024

INTERIOR DESIGN

Based on over half a century's worth of Scandinavian design excellence and backed by the industry's leading designers.

TRACER

LAYOUT

The generous cockpit seating area makes the 29 Huracán a superb all-rounder, allowing you to entertain on a nice day out whilst having all the amenities for an extended stay.

The deep-V hull that is synonymous with Windy Boats is designed to tackle the toughest of Scandinavian sea conditions and get the best from the ever-willing Volvo Penta or Yanmar engines.

The 29 Huracán offers the speed you would associate with much smaller boats whilst providing the comfort of a larger model.

With a wide range of diesel and petrol engine options, the 29 Huracán is capable of speeds up to 43 knots.

PERFORMANCE

29 Huracán
