Description

The **Cranchi Atlantique 40** was, at the time, the true **flagship of the Italian shipyard**, a model that marked a before and after in the Cranchi flybridge range due to its balance between volume, navigation, and construction quality. Today, it remains a highly valued boat for those looking for a solid, seaworthy cruiser with a timeless design.

This **pre-owned Cranchi Atlantique 40**, from the year 2000, stands out especially for its low usage: **587 hours of operation**, a very low figure for a boat of this age. It is equipped with **two 370 HP Volvo Penta TAMD63 engines**, an engine recognized for its reliability, thrust, and durability, ideal for comfortable and safe navigation in all types of conditions.

The **flybridge** is one of the great attractions of the model, offering a second helm station with excellent visibility and an elevated social area perfect for enjoying navigation and life on board. The main cockpit is spacious and well protected, with a distribution designed for comfort on crossings and prolonged stays.

Inside, the **Cranchi Atlantique 40** offers a classic and welcoming atmosphere, with a generous distribution that includes a living room, a well-integrated kitchen, and comfortable cabins. The spaces are well proportioned and designed for real use in family cruises, maintaining the robustness and marine character that defined this model since its launch.

Overall, this **Cranchi Atlantique 40** represents a very interesting opportunity within the pre-owned market for those looking for a **mid-length flybridge**, well-motorized, with few hours, and the backing of a model that was a reference in its segment. Unit available at **Nautic Luis**, in **Empuriabrava**.
