Description

Nautic Luis has the pleasure to present the Nimbus T9

an exceptional addition to our carefully selected range of boats that stands out for its functionality, intuitive design and robust performance. This boat establishes itself as a favorite choice for those who value precision engineering and versatility on the water, offering an unparalleled boating experience for amateurs and experts alike.

The Nimbus T9 is equipped with two Mercury V6-225 XL engines that combine efficiency and power, ensuring smooth and fast navigation, capable of meeting the expectations of the most demanding sailors. This model, perfectly balanced between size and capacity, is ideal for a variety of activities at sea, from coastal explorations to sport fishing, always guaranteeing a comfortable and safe stay on board.

The design of the Nimbus T9 places particular emphasis on comfort and ease of use, with a layout that maximizes available space, allowing passengers to move freely and fully enjoy their time at sea. The boat includes features designed for outdoor enjoyment, such as a spacious and adaptable living area, a bow for water skiing, complemented by smart storage solutions that ensure everything has its place.

Technology is not left behind on the Nimbus T9, which comes equipped with two Simrad NSX 12" navigation systems, making every outing a pleasant, hassle-free experience. These innovations, combined with its robust build and attention to detail, make the T9 a reliable and attractive boat for everyone who loves the sea.

Nautic Luis is committed to providing boats that exceed our customers' expectations. The Nimbus T9 represents this commitment, offering an unmatched combination of design, comfort and performance. We invite you to discover all that the Nimbus T9 has to offer. For more information or to arrange a visit, please contact us. We are here to help you find the perfect boat to complement your passion for the sea.
