Description

The **used Windy SR44** is an exclusive opportunity within the high-end boat market. This 2020 unit, equipped with **two Volvo Penta IPS 650 engines** and with only **237 hours of use**, is presented practically as new and with an impeccable maintenance history, carried out entirely by **Nautic Luis**, official importer of Windy in Spain and Volvo Penta authorized service.

Its behavior at sea is one of its great attractions. The SR44 reaches a maximum speed of **43 knots**, maintaining a comfortable cruise around **32-34 knots**. With an adjusted consumption of **3 to 3.8 liters per nautical mile**, this unit combines efficiency and power with an immediate response: it accelerates from 0 to 25 knots in just **9 seconds**.

The design of the SR44 Blackhawk reflects the essence of the Norwegian shipyard Windy: elegant lines, a wide and versatile deck, and a bright and functional interior designed for getaways of several days. Every detail transmits the quality and Scandinavian style that distinguish the brand.

This **used Windy SR44** is available at our facilities in Empuriabrava. Its low usage, excellent state of conservation, and the guarantee of official maintenance make this unit a unique option for those looking for an exclusive, reliable, and high-performance boat.
