DESCRIPTION

The Windy 25 Mirage is one of those boats that has left its mark on the history of the Norwegian shipyard. Conceived as a true high-performance sports cruiser, this model combines a timeless design with build quality and seakeeping that still set the standard in its segment today. Its hull, designed by Hans Jørgen Johnsen—author of some of the brand's most acclaimed hulls—offers firm, agile and safe navigation even in demanding conditions, with a deep V-hull that cuts through the waves with precision and smoothness.

This unit, manufactured in 2004, is equipped with a 260 HP Volvo Penta KAD44P-C engine and has 367 hours of use, a configuration that guarantees a perfect balance between power, efficiency and reliability. With it, the Windy 25 Mirage reaches speeds close to 40 knots, always maintaining total control and an immediate response in each maneuver. The steering is direct, the wave passage is clean and dry, and the feeling of safety is absolute, features that have led the specialized press to define it as “one of the best handling boats in the world in its size.”

The exterior design reflects Windy's characteristic Scandinavian elegance: fluid lines, harmonious proportions and a deck designed to enjoy the sea. The cockpit, finished with a teak floor, has a comfortable U-shaped area that easily converts into a solarium, accompanied by an ergonomic helm station with swivel seats for the skipper and companion. Every detail, from the stainless steel fittings to the stowage compartments, demonstrates the shipyard's artisanal precision.

Below deck, the 25 Mirage surprises with its use of space. The main cabin offers a double bed convertible into a sofa, complemented by wardrobes and a marine toilet, creating a cozy and functional environment ideal for weekend getaways. Aft, the integrated swim platform facilitates access to the water and has a shower and retractable ladder.

Currently available in Empuriabrava, this Windy 25 Mirage represents an exceptional opportunity for those looking for a sporty, refined boat with the unmistakable stamp of Norwegian construction. It is delivered with the engine service completed, ready to enjoy from day one.
