Description

The pre-owned Windy 28 Ghibli is one of the most emblematic models from the Norwegian shipyard Windy, a boat that perfectly embodies its philosophy: timeless design, precise navigation, and build quality that remains a benchmark over the years. Conceived as a true sporty daycruiser, it stands out for its solid and comfortable performance, even in demanding conditions.

This unit, from 2002, is equipped with a 285 hp Volvo Penta KAD300 engine, a diesel engine widely recognized for its reliability, thrust, and efficiency. The combination of this engine with the Windy hull guarantees stable, safe, and very balanced navigation, both at cruising speed and in port maneuvers.

On deck, the Windy 28 Ghibli offers a well-utilized cockpit, with wraparound seats that promote life on board and a layout designed for both navigation and relaxation. The helm station has a clear and functional layout, with good visibility and a classic design that reflects the Scandinavian character of the model.

The interior maintains the characteristic Windy quality standard, with a cozy cabin, wood finishes, and a practical layout for day trips or weekend getaways. The whole set conveys solidity, coherence, and a strong nautical character, values that make the pre-owned Windy 28 Ghibli a highly appreciated option in the second-hand market.

An interesting opportunity for those looking for an authentic Windy, with excellent performance at sea and a construction designed to last, available at Nautic Luis.
