Description

The Windy 37 Grand Mistral HT is a sport cruiser with a distinct Scandinavian character, designed to combine performance, build quality, and onboard comfort. Its sporty and elegant lines reflect Windy’s philosophy, a shipyard especially renowned for the handling of its hulls and the attention paid to finishes and ergonomics.

On the exterior, one of the most characteristic elements of this version is its large Hard Top, equipped with a wide sliding hatch over the helm and co-pilot positions. This configuration allows for protected navigation when conditions require it and, at the same time, opens the deck to fully enjoy good weather days. The cockpit offers a generous U-shaped sofa with a folding table convertible into a sun lounge, in addition to a practical wet bar with a sink and refrigerator, creating a particularly pleasant space for spending the day on board.

The interior layout maintains Windy’s characteristic functional and elegant approach. The saloon and galley are integrated into a warm environment, with noble wood paneling and teak and holly flooring, and include a sofa with a table, a two-burner stove, a sink, a refrigerator, and numerous storage spaces. The natural light provided by the hatches and portholes contributes to a pleasant sense of spaciousness.

The sleeping area features two independent cabins. The master cabin has a large double bed, wardrobe, and various stowage spaces, while the aft cabin also includes a double bed and its own storage. The layout is completed with a separate head equipped with a shower, washbasin, and hot and cold water, allowing the boat to be used comfortably for both day trips and multi-day cruises.

In navigation, the Grand Mistral particularly stands out for its balance of sportiness, safety, and comfort. This unit is equipped with two Volvo Penta D4-300 300 hp engines, a total 600 hp configuration that perfectly matches the model’s character. Windy’s renowned hull geometry provides precise and stable navigation, especially noticeable when sea conditions become challenging.

This 2010 unit, with only 94 engine hours, also incorporates particularly comprehensive equipment, including a bow thruster, Raymarine Axiom Pro 12 plotter, Raymarine RAY90 VHF, hydraulic trim tabs, teak on deck and swim platform, aft-extending awning, and a hull finished in blue gelcoat.

Due to its layout, performance, and construction level, the Windy 37 Grand Mistral HT remains a very attractive proposition for those seeking a sport cruiser with genuine marine qualities, capable of combining long days of navigation with a high level of onboard comfort.

Equipment

EQUIPAMIENTO INTERIOR
